DESIGN

You need ads created or changed by the Yukon News

Digital-ready editable ad files:

InDesign (up to CS6): Send InDesign file and all associated files - graphic files and fonts

Photoshop: (up to CS6) Send as Photoshop PSD - file (do not flatten) and all fonts

Illustrator (up to CS6): Send as EPS or AI file - Outline fonts or package fonts

Additional requirements

Illustrator: AI and EPS graphic file format.

Photoshop: TIFF and JPEG formats. Resolution is minimum of 300 dpi at intended final size.

Send text files as Microsoft document file as attachments in your email.

Simple text files in the body of an e-mail message.

No process black, pantones or spot swatches.

** We accept Mac and PC file formats. **

All colour ads need to be in CMYK format

We do not work with Publisher files and Corel Draw files are unpredictable in our publishing system.

It is safest to save and send to us as EPS file or save to high resolution PDF.

We are happy to experiment with files in any format not mentioned here but, please contact us so we can test them early.

Your ad is complete and ready to print in the Yukon News

Send your complete and digital-ready non-editable ad file using:

Adobe Illustrator (up to version CS6).

Send Illustrator AI or EPS file and all associated fonts.

Fonts aren't required if the file is converted to outlines. Other placed art is required (i.e. placed TIF files);

TIFF & JPEG: Resolution for clear, legible text should be at least 300 dpi at 100% size; should be saved at highest quality

PDF: PDF should be created using as little compression as possible.

** We accept Mac and PC file formats. **
